**A CARD TO THE PUBLIC.**

THE ADVERTISEMENT OF THE CARSON  
SOAP WORKS which appears in to-day's  
State Journal was composed and written by me  
before ever the manager or workman of the Car-  
son Soap Works knew what a piece of soap was. I  
am surprised at L. H. Greenlaw appropriating an  
advertisement written by a person not having  
charge of the educational interests of a certain  
portion of our State. Were I connected with in-  
stitutions of learning I would not appropriate the  
simple composition of a hard-boiled son of  
toll, endeavoring to advance my own interests.

**FOR FINE JOB PRINTING CALL**  
at this office.

WASHOE COUNTY OFFICIAL PRESS

D. C. POWNING, EDITOR AND PROPRIETOR

FRIDAY, JUNE 2, 1876.

For President of the United States:

**B. H. BRISTOW,**  
SUBJECT TO THE DECISION OF THE  
REPUBLICAN NATIONAL CONVENTION

CONTROL OF THE PRESS.

Jay Gould seems to own the New York *Tribune*, and it is reported that Col. Tom Scott put up the money for the purchase of the *World* from Mr. Marble. On this Coast the Central Pacific own the *Sacramento Record Union*, and Senator Jones the *San Francisco Post*. We are sorry to note the fact that the leading papers of the country have and are passing into the control of wealthy corporations and individuals. It is indicative that their great power and influence will be exerted against the people; that, in fact, the people will eventually be conquered and subdued by the weapons which they have fostered to maintain and defend their rights. With the press under the control of the railroad monarchs of the country and we should soon have an oligarchy a thousand times worse than the most despotic form of monarchial government. Without the aid and support of the people no newspaper can exist, and we think that when a paper ceases to be a true representative of journalism and becomes an organ for some wealthy individual or railroad corporation, the people should cease to sustain it. Capital needs no protection. It is always able to fight its own battles. Labor is not in so fortunate a condition, and every dollar spent for the above purpose is only strengthening the enemy.

THE FRYER PROCESS.

The editor of the *Enterprise*, who is well versed in mining and milling matters, visited the Fryer reduction works last week, and concludes an article upon the subject in the following language:

His process is most simple, but it is, after all, a heroic practice which he prescribes for rebellious ores. The precious metal is not coaxed out of them, but the process acts upon them as it is said purgatory acts upon the souls of sinners—all that is base and impure is purged away. The principle is entirely right, and we predict that the process will revolutionize the working of, at least, rebellious ores all over the world.

The new Board of Directors for the Pacific Mail Steamship Company is as follows: Charles J. Francklyn, Andrew Boardman, S. G. Thompson, Charles H. Merritt, Wm. P. Clyde, Thomas J. Owens, Charles G. Miles, Henry Hart and Conrad A. Quintard. One hundred and forty thousand of the 200,000 shares were voted. Wm. P. Clyde is to be President of the company.

The Letter of Governor Stanford.

In our brief report of the meeting of the Mexican Veterans in yesterday's paper we stated that a letter had been read from Leland Stanford stating that he would convey free all Mexican Veterans from Reno to Ogden who presented themselves with the proper credentials. Below we give the letter. It will be seen that the proper credentials and the "discharge papers" of those soldiers are required. This may be an inadvertence in writing, but, if not, we are of opinion that few if any of the Veterans will receive free passage, as it is not probable that many of them have their "discharge papers." Such soldiers of the Mexican war as received land warrants had to surrender their discharge papers to the Government at the time they were delivered to them. But to the letter:

SAN FRANCISCO, May 27, 1876.  
DEAR SIR: Your letter of the 18th instant, in relation to free transportation over Central Pacific Railroad for the Nevada Association of Veterans of the Mexican War, has been duly considered. On presentation of the proper credentials and "discharge papers" our agents will be authorized to pass such Veterans free from Reno to Ogden. We have no arrangement with other companies so that we cannot pass you further than our own road.

LELAND STANFORD.  
WM. GARRARD, Esq., Corresponding Secretary Nevada Association.—*Carson Appeal*, 31st.

REMEMBER the Board of Trade meeting to-night.

## EASTERN DISPATCHES.

Pistols Used—Mustang Race.

New York, June 1.

A special from Madison, Florida, says that the Republican State Executive Committee met yesterday with closed doors. Nine counties sent double delegations. The Committee on Credentials pulled against the delegation favoring Conover. Ex-Congressman Mills, being ruled out, threatened vengeance. A fight ensued and several persons were wounded. The Sheriff was shot in the leg and slightly wounded. Butler, of Santa Rosa, attacked Conover in the committee-rooms. Friends of Conover declare that there is a conspiracy to murder him. A fight is imminent. There are forty-seven delegates for Conover and sixty-five for Stephens.

At 4 o'clock Thos. Parker commenced his attempt to ride 305 miles in fifteen hours. The weather is fine and everything favorable. The first 100 miles was made in four hours and twenty-eight minutes. He is confident of winning. The attendance is small.

Lightning Train.

HARRISBURG, Pa., June 1.

Jarrett & Palmer's transcontinental express train for San Francisco passed Harrisburg one minute ahead of time, and passed Altoona on time, without making any stop between Jersey City and Altoona.

Pittsburg, Pa., June 1.

Jarrett & Palmer's fast train arrived at 11 A. M., a distance of 454 miles in 9 hours and 58 minutes without stopping. The train was transferred to the Pittsburg, Fort Wayne and Chicago Railroad, and left for Chicago at 11:03 A. M.

Butchery.

CINCINNATI, June 1.

Specials and private dispatches leave no doubt of the butchery by Indians of all Col. S. Jones' party from here to the Black Hills. All except eleven men who left the main expedition at Kearney and joined another party were killed. One of them who escaped, arrived at Lincoln yesterday, with full particulars of the butchery, and is now on his way home.

Mining Patents—New War Secretary.

WASHINGTON, June 1.

About six months ago Adolph Sutro filed a protest in the General Land Office against all applications for patents for mining claims in townships No. 16 and 17, north range, 21 east in the State of Nevada, upon the ground that the condition specified by the third section of the Sutro Tunnel Act should be inserted in all patents for claims in those townships. This claim was the subject of a long argument before the commissioner who has now decided that the condition referred to should be inserted only in claims upon the Comstock lode extending from the Utah claim, northerly, to the Baltimore American and southerly in the same direction.

Don Cameron yesterday accepted the portfolio of the War Department. He will be sworn in to day and enter upon his duties.

## WESTERN DISPATCHES.

Anti-Chinese Agitation—Mining.

SAN FRANCISCO, June 1.

A number of anti-Chinese clubs met last night adopted measures looking to a continuance of the agitation of the question. The proprietors of the Grand and Occidental Hotels and the Lick House no longer allow Chinese laundrymen to visit the rooms of their guests. They are not permitted to enter the last named hotel at all, and in others they are obliged to remain down stairs.

J. C. Caldwell Superintendent of the Rough and Ready mine has published a card in which he says that the troubles are not caused by his Company, but by the Woodville folks, acting as a tender to the Justice. He claims that the title of the Rough and Ready is older and better than that of any mine in the neighborhood.

An assessment of \$2 per share was levied on Savage yesterday.

The St. Louis Mining Company, recently incorporated, is an offshoot of the Silver Hill, and will be divided up among the shareholders in the proportion of two shares to one of the old shares of Silver Hill.

## Local Mining Review.

During the past week there has been shipped in bullion from Pioche by Wells, Fargo & Co. \$20,000, a decrease in last week's shipment owing to the Eureka stage having made one trip less. The machinery for the Meadow Valley mine is now arriving rapidly and will all soon be in Pioche. The work on the stone foundation and the beds for the machinery is being pushed ahead rapidly—nothing is neglected in the way of pushing ahead the work as fast as possible. The Raymond & Fly mine continues its work without change. The pump is working satisfactorily. Ore from Tocquerville continues to arrive daily, thirty tons having arrived during the past week, all of which is being worked at the Alps mill and is yielding well. The arrival of Martin Tarpey and T. R. Butler will start the Washington and Creole mine and push forward matters rapidly in the Pioche and Antilles. Arrangements are being consummated to again start work on the Huhn & Hunt mine on a better basis than ever heretofore. The main shaft of the American Flag mine will be sunk one hundred feet deeper, at which depth good ore may be expected. With the work to be again commenced on the various mines and the pushing forward of the Meadow Valley, there will be very few or no idle men in Pioche, which will cause a revival of trade in all branches of business here. Pioche may look for much better times before long.—*Pioche Record of Sunday*.

—The Eureka *Sentinel* publishes the following:

WE yesterday were shown a letter, received from the East by a friend, conveying the intelligence of the sickness of a relative and the impossibility of her recovery. The party referred to, a little girl, had been poisoned by wearing striped "seal-brown" stockings, which particular color has been found to contain a most virulent poison. In this case the poison had penetrated the entire system of the little child before it was discovered, and the physician attending her had given up all hope of saving the life of his patient. We make mention of the circumstance, as many parents and others in our town are not aware of the dreadful consequences following the wearing of hose dyed with this particular color. In purchasing, "seal-brown" should be avoided, for while perhaps it may be worn by some without injury, sooner or later a victim will be found. We have not heard of any other color than the one referred to containing any poisonous matter, but it would be well to avoid all shades of brown.

PARADISE VALLEY.—Alex Middleton, of Battle Mountain, who has been on a visit to Paradise Valley, arrived here last night, and is enthusiastic in his praises of the garden of Nevada. He says the grain is now a deep green, and about six inches high, and to one accustomed to dusty streets and sagebrush surroundings, as he is at Battle Mountain, it is really delightful to look at. He is interested in the ranch of O'Neal & Middleton in that valley, which the owners intend to make the model ranch of Nevada. They have 1,280 acres, enclosed with a substantial fence, 100 acres of which is sown to barley and the balance to clover, redtop and blue joint grasses. They have a number of blackberry, gooseberry and cranberry bushes on the place which are literally loaded with fruit, having sustained no injury from the cold spell of two weeks ago. Though Middleton does not live in Paradise at present, he has hopes that his future home will be in that blissful region.—*Winnemucca Silver State of Wednesday*.

STRAWBERRIES.—There is one thing inexplicable to the average mind in connection with strawberries. It is the question of why in the world you have to pay the same amount of money at all times of the season. When the berries are fifty or seventy-five cents a box you can purchase them for twenty-five cents a saucerful, and when they retail for twelve and a half cents a box it costs you just the same for that luxury at the restaurants. To some this appears a little strange, but it may be that the restaurant-seepers lose so much in the first of the season that they have to make up for the loss when they get a chance.—*G. H. News*.

IN England 300 lbs. falling fifteen feet broke an eighty pound rail, and a test was adopted of 2,220 lbs. falling fifteen to seventeen feet on a rail resting on heavy bearings. German engineers have applied a test of 1,000 lbs. falling ten and a half feet. In this country, 1,500 lbs. falling six feet is a severe test. In Austria, the test for steel rails (having 1 1/4 per cent carbon) is 2,000 lbs. falling thirteen and a half feet. German engineers give 0.3 per cent as the minimum of carbon for a steel rail, otherwise the rail is too soft.

MINE SOLD.—The Winnemucca *Silver State* of Wednesday says it is reported that the Dunsing Mine, an extension of the Eagle, in Lewis District, near Battle Mountain, has been sold to San Francisco men, and that arrangements have been made for sending 50 tons of the ore now on the dump, to this place for reduction.
